

Immanuel Chapel Naming Opportunities

CHI Health Immanuel

The relocation and renewal of the Chapel is an essential element of our faith-based mission and calling as we minister to our patients and families and support our care team to grow in spirituality, enhancing their healing abilities. Our desire is to place a beautifully designed and inspirational chapel at the front entrance of the hospital. Adjacent to the healing garden, it will allow patients, families, visitors and staff the opportunity to be inspired and find strength through prayer, reflection and meditation. We hope this beautiful space at the entrance of our hospital will be a beacon of hope to all who come to us for care, and provides a clear message that this is a place of healing, mind, body and spirit for people of all faiths.

CHI Health Immanuel Chapel

Naming Opportunities

Chapel

\$500,000

With the Chapel at the heart of Immanuel's campus, this unique naming opportunity will allow you to have the chance to name a very frequently visited destination on our campus. Naming will be added to the main hallway as well as signage throughout the campus.

Stained glass wall

\$250,000

This art will be the main feature in the Chapel. The stained glass wall will cover the entire East wall with a very impressive and intricate design. Inspiration for this design was drawn from nature. The design conveys the peaceful, calm feelings one may have while praying, walking or sitting in a garden.

Front Entrance Stained Glass

\$50,000

The front entrance will be a grand first impression to all who visit our new Chapel. The design will be a continuation of the scene from the main wall.

Exterior Cross

\$50,000

The exterior cross will be the beacon of light shining over our campus to indicate the location of our new Chapel. We want all visitors and patients who enter to know that we are a faith-filled hospital that believes in healing the mind, body and spirit.

Interior Cross
